Supporting Electric Vehicle Adoption

- **Partnerships and Teams** – Participation in local and statewide EV initiatives
- **Electric Vehicle Rebates** – Up to \$400 for residential level 2 chargers
- **Electric Vehicle Charging Power Rate** – Consumption-based rate for EV charging stations
- **Infrastructure Investments** – Pursuing two projects under TVA Fast Charge Network Tennessee
- **Customer Efforts** – Supporting local EV charging projects
- **KUB Fleet Vehicles** – Implementing AFV fleet strategic plans

KUB Offers Up To \$400 for Level 2 Chargers

- Available to residential customers who purchase a level 2 charger and own or rent and electric vehicle
- Applicable for 100% of equipment and installation costs, up to \$400 maximum

Application Process

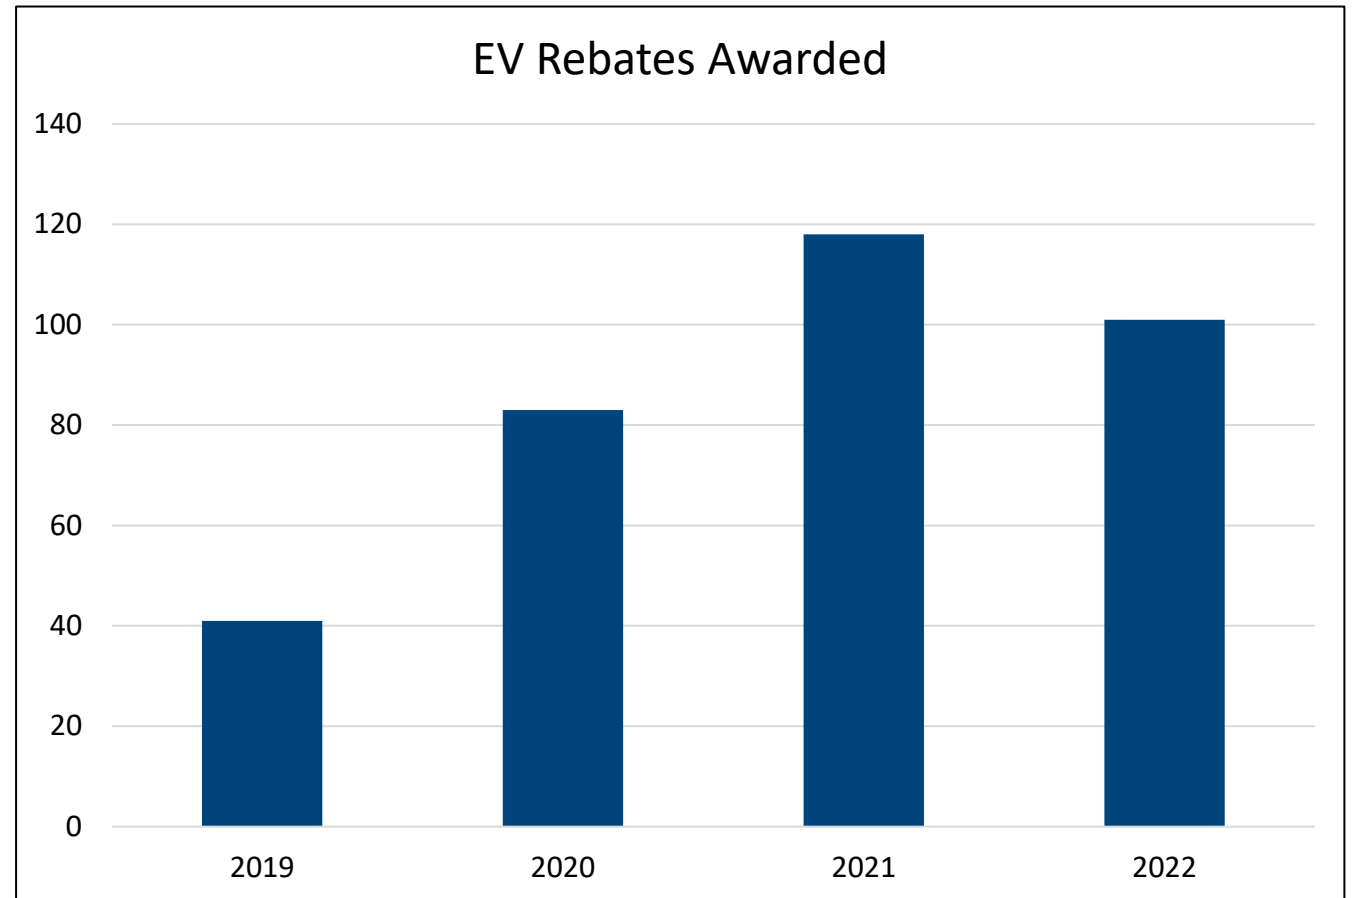

- Apply using online application
- Submit photo of installed charger
- Attach all equipment/labor invoices
- Rebate applied as utility bill credit

EV Charger Rebate Program Results

Lessons Learned

- Expanded cost criteria to include installation costs
- Added condos and multi-family dwelling units to eligibility
